Efficient Air Slide Solution for Cement & Fly
Ash Bulker Trailers

NEWAGE BULKER HOSE

NEWAGE
FIRE PROTECTION
INDUSTRIES PVT.LTD.

Product Overview

NewAge Bulker Hose is a heavy-duty air slide hose engineered for smooth, fast, and reliable discharge of cement and fly ash from bulker trailers.

Its controlled air permeability fluidizes bulk material, eliminating compaction and ensuring efficient unloading even in harsh operating conditions.

Design Highlights

Ploymer-Coated Red Surface on One Side

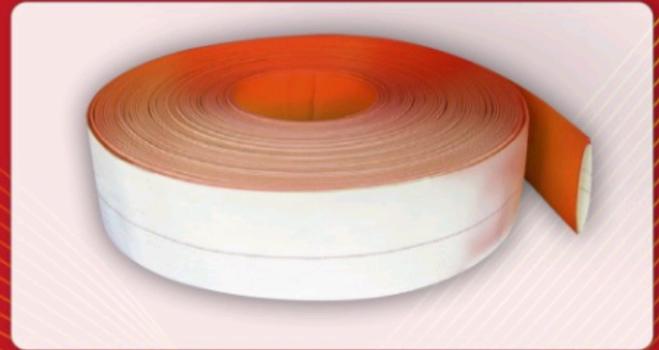

- ▶ High abrasion resistance
- ▶ Blocks air flow on one side
- ▶ Protects polyester jacket during trailer operation

Air-permeable Surface

- ▶ Controlled air release
- ▶ Efficiently fluidizes cement & fly ash
- ▶ Prevents material compaction and blockage

Heavy-duty Construction

- ▶ 100% high-tenacity Synthetic Yarn
- ▶ Anti-rot and weather resistant
- ▶ Designed for continuous bulker trailer use

Technical Specification

• Internal Diameter	100 mm
• Length	Up to 100 M
• Material	High tenacity synthetic Yarn
• Operating Temperature	30 °C to + 80 °C (Continuous)

Key Features & Benefits

- ▶ One side air-permeable, other side PU-coated
- ▶ Excellent abrasion resistance and long service life
- ▶ Lightweight, flexible, and easy to coil
- ▶ Weather resistant with minimum maintenance
- ▶ Ideal for continuous cement & fly ash unloading operations

Applications

- ▶ Cement Bulker Trailers
- ▶ Fly Ash Bulker Trailers
